

Amp up your fleet

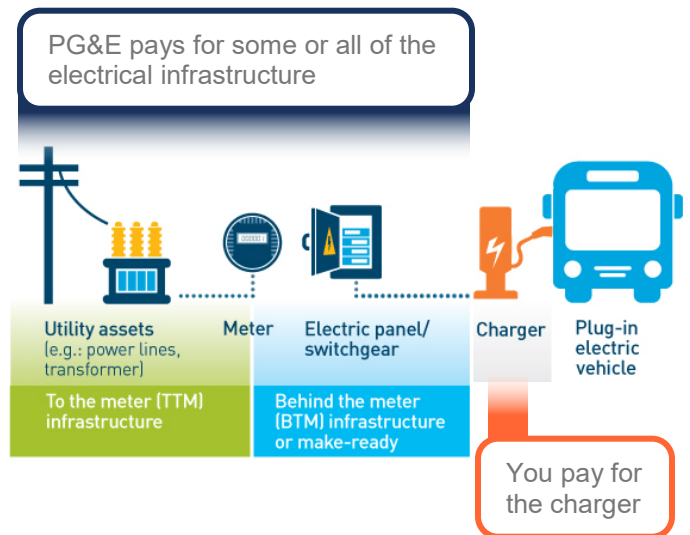

With PG&E's EV Fleet program

Electric vehicles are on the rise. Now is a great time to join EV Fleet, part of PG&E's expanding EV Charge Network. For a limited time, we'll help you install EV charging infrastructure for your fleet and cover a large portion of the total costs.

Program overview

- 5-year program from 2020-2024
- 700+ sites supporting 6,500 new EVs (2+ per site)
- Support conversion of commercial and public fleets to electric (ex. delivery, transit buses, forklifts, etc.)
- For eligible customers, PG&E will cover costs of electrical infrastructure from the pole up to the meter panel including design, permitting, and construction. Make-ready* infrastructure ownership eligibility at PG&E discretion.**
- Additional rebates on chargers for disadvantaged communities, school buses, and transit buses
- Limited-time offer

How it works

Take advantage of this limited-time opportunity

PG&E is here to answer any questions and to help you join the program. Reach out to your PG&E representative for more information. Learn more about the program at pge.com/evfleet.

Don't wait. This offer won't last forever!

*PG&E refers to Pacific Gas and Electric company, a subsidiary of PG&E Corporation. ©2019 Pacific Gas and Electric Company. All rights reserved. These offerings are funded by California utility customers and administered by PG&E under the auspices of the California Public Utilities Commission. CLB-0419-1008. *Make-ready, behind the meter (BTM) infrastructure work for EV Fleet program includes everything from the meter up to the charger stub (excluding the charger) – BTM switchgear, any stepdown transformers (if needed), concrete pads for the equipment, trenching and installing of conduits and wires to the charger stubs. ** PG&E will determine eligibility of PG&E-owned make-ready option based on project scope and associated costs; this option is not available to customers who hold Primary Service with PG&E.
